

Color Suggestions

Great Dane Graphics offers this color list as a starting point in using our “duotone” style images. If you see a duotone style design in our catalog and it is printed in (greens), that same design can be printed in any monochromatic color scheme using the colors below. You can vary from this list, this is just a starting point.

You may find that adding 10% white to some of the colors will help the colors stand off of a dark shirt a little better.

One note on viewing the color separations in Adobe Photoshop, when looking at the individual channel separations, the colors SHOULD look oversaturated! This is normal and will allow the color to print correctly on the garment.

COLOR LIST

HUE	MAIN COLOR	HILITE COLOR
NAVY	Pantone 293, 286	Pantone 285, 299
ROYAL	Pantone 300, 286	Pantone 299, 297
